Green Energy Innovations
10011 Pioneer Blvd.
Santa Fe Springs, CA 90670

Dear Paul Bravo,

I would very sincerely like to thank you and the crew at Green Energy Innovations for the amazing job that you have done for Forestville Union School District. At first, the thought of changing out every fixture on our campus to an LED fixture was overwhelming, but from the first phone call to the final walk through, your team was professional, reassuring and efficient.

I really appreciated the way that you explained everything to us in layman's terms and made sure that all the documents and correspondence with PG&E were handled quickly and correctly. Your personal visit to our site to inventory all of our fixtures and to answer any and all of our questions convinced us that we were working with the right people.

When you handed the baton off to Frank and the installation crew, we were even more impressed. Frank kept me well informed as the project progressed, which was very helpful as we had to coordinate several projects that were going on at the same time. The crew worked quickly and efficiently. They did a great job of cleaning up as they went and were very respectful of our campus, staff and students.

I would be happy to recommend your company to anyone who is interested in moving to LED lighting.

Sincerely,

Jackie Bertero
Director of Facilities
